

The goal of Financial Peace University is not just information—we're looking for transformation. More than one million families have attended FPU with amazing results. On average, they pay off \$5,300 in debt and save \$2,700 in just 90 days. **People in our community who have taken this class:**

Corissa and I paid off my truck this past week, a year and a half early. This was the last of our debts besides our house. We're now working on 6 months of living expenses.

Big difference. Dave would still be chasing me about some things ... but it has changed our approach to debt. Carol and I are using gazelle-like intensity to pay off our debt. It will take quite a while given the amount of college debt amassed, but we have a plan and we've been on that plan for over a year and we are ahead of schedule!

~ Couple college aged children

We really enjoyed FPU, and we are still doing the program steps. It was of very great value to us and we have our own victory story. I did have about \$27,000 in student loan debt from grad. school. After graduating, it was very nice to have a real job and some income. We continued living as if we were on the smaller budget, and plugged all the extra income into paying down the debt, so that we were able to play it all off within six months. I think the FPU helped us in being more aggressive and not getting sidetracked.

These folks took this class last spring. They have had time to implement Financial Peace. **Here is what they said...**

Our family has put a lot of what we learned into practice. It's tough following a budget but it brings your financial situation into reality instead of ignoring it!! I feel like our family has a work in progress financial plan now.

~ Husband & wife with elementary children

Ramsey's advice really saved us a lot of money (getting better insurance, etc.) and we've really been working toward the principles ever since. So, definitely not a waste of time! It was really helpful for us.

~Twenty something couple

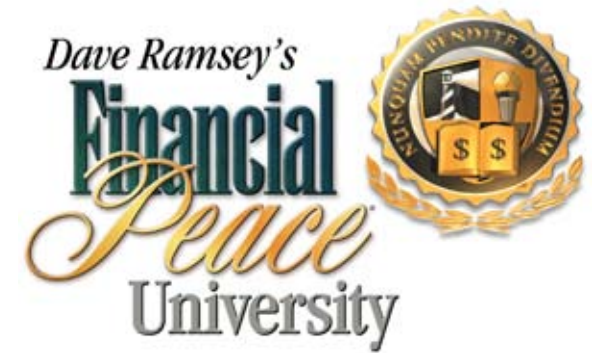

This course helped us have dialogue focused on peace and giving. It gave us specific strategies and steps to guide our process of working together. We are carrying through, and I for one, sleep much better now that we paid off our mortgage, rather than having the funds sinking or swimming with the stock market!

Please take this class - give it a chance. The common sense information does bring financial peace.
